WORK & LEADERSHIP EXPERIENCE

SimplifyNext

Kuala Lumpur, Malaysia

Technology Analyst, Full-time

Jan 2024 – Present

- As a Technology Analyst, I design, develop, and implement robust robotic process automation solutions, collaborating with cross-functional teams to streamline business processes and achieving significant improvements in efficiency.

Breakthrough Academy

Remote, Malaysia

Web Developer, Internship

Apr 2023 – Aug 2023

- Led multiple website development projects, demonstrating adaptability and leadership, while utilizing technologies such as Editor X, HTML/CSS, JavaScript, PHP, and WordPress to deliver visually captivating, functional, and responsive websites, fostering cohesive teamwork and successful project outcomes.
- Selected Project Experience:
 - APNA (Asia Pacific Neuro-biofeedback Association)
 - Led a team of web developers to create a new website for the non-profit organization APNA, yielding a modern and engaging online platform.
 - CEO's Personal Branding Website
 - Directed a team of web developers in crafting a personal branding website for Breakthrough Academy's CEO, resulting in expanded social media presence and brand awareness.
 - Update and Develop New Pages for Breakthrough Academy's Website
 - Revitalized visuals and generated new pages for Breakthrough Academy's website independently, enhancing page readability and attracting a greater clientele base.

transact2

Remote, Malaysia

Full Stack Developer, Internship

Jan 2021 – Apr 2021

- Contributed to the development of Transact2's HR solution software using Vue.js and JavaScript, crafting intuitive forms seamlessly integrated with Node.js and MySQL backend operations.
- Utilized proficient Git skills to facilitate collaborative efforts within the team, ensuring the delivery of robust solutions for streamlined data manipulation and enhanced user experiences.
